

# Technical Institute

The Republic Services Technical Institute offers paid on-the-job training, high-tech classrooms and computer-based learning for you to work toward your technical certifications or Commercial Drivers License (CDL), tuition-free.

## The Republic Services Technical Institute offers two exciting training programs:

A two-year, certified Department of Labor Apprenticeship for diesel technician candidates or a four to six week training course for candidates interested in obtaining their CDL. No experience or prior training is required.

### During the 4-6 week CDL Training Program:

- ✓ Study and pass a CDL Permit Exam and complete all necessary DOT documents prior to formal training
- ✓ Spend 5 days at our training facility in Dallas, TX where you'll be trained on Commercial Motor Vehicle (CMV) Skills Development, Range Training, and Pre-Trip inspections. After this training is complete, you'll conduct a drive exam on-site
- ✓ Upon passing the drive exam, you'll return home with your CDL and go through several weeks of Behind-the-Wheel instruction with a trainer before graduating and operating your own CMV.

### During the 9-Week Technician Training

- ✓ You'll receive paid, hands-on, tuition-free instruction focused on entry-level preventive maintenance-related work at our facility in Dallas, TX
- ✓ You'll qualify for subsidized housing\*, covered travel to and from daily training, uniforms, PPE and a toolbox
- ✓ You'll have a dedicated mentor with experience to support and help you succeed
- ✓ Relocatable before and after the program

### During 21-Month Technician On-the-Job Technician Training

- ✓ You'll earn full-time, competitive pay as you practice your new technical skills on the job
- ✓ You'll build your career in a stable industry
- ✓ You'll work to become a C- or B-Technician, earning nationally portable credentials
- ✓ You'll gain advancement opportunities across Republic Services' national professional network
