

Jump Start Your Career.

The new Republic Services Technical Institute offers paid on-the-job training, high-tech classrooms, and computer-based learning for you to work toward your technical certification tuition-free in Dallas, Texas.

APPLY NOW

At Republic Services, we strive to be a company where the best people come to work. We value our team members and want to aid in their continued growth by offering:

- A **tuition-free program** to receive an industry-recognized and nationally portable credential
- **Full-time, competitive pay** throughout the training program
- **Subsidized housing accommodations** and during training for those eligible
- **Leadership development**, life skills, and a focus on wellness in addition to technical training
- **Immediate placement** as a full-time technician with Republic Services upon graduation
- A **company-provided toolbox** with job-specific tools.
- **Dedicated mentors** and continued training available to aid in your success as you **advance your career** in a stable industry

Learn more and apply at RepublicServices.com/TechInstitute

The Institute offers a 9-week program for those without prior diesel maintenance training and a 4-week program for tech school grads. **Apply now.**

To explore this opportunity or refer a candidate, **visit our website via the address below.** Current employees can also reach out to their supervisor or HR manager.
